City Employees Get Pay Increase

Unusual Hot Weather In Daly City Brought Big "Workout" For Firemen

Last week end's unusual hot weather, which sent the mercury past the 90 mark in Daly City and threatened forests throughout the state, caused a record number of brush fires on Saturday and kept the various fire companies in the city busy throughout the day. On Saturday alone there were five separate fires and one false alarm.

The false alarm was early Saturday morning when the alarm box at Evergreen and Winchester was turned on. A fire company from San Francisco responded to the call. Inspectors believe that a car traveling up Evergreen avenue struck the guard cap on the pole and thus broke away the tower section. This caused the door of the box to open and the glass to break.

Also on Saturday morning there was a grass fire at the U.S. Army Wireless Station at Crocker Hill and companies 1, 2 and 4 responded. Shortly before noon there was a rubbish fire on a lot at Westlake and Willits street and companies 1, 2, 4 and 6 responded.

At noon on Saturday there was a grass fire at 87th and Junipero Serra streets and companies 1, 2 and 6 responded.

A fire on Saturday evening in the basement of J. C. Belfrage, of 133 East Vista avenue, began when Belfrage was washing the basement floor with gasoline and the fumes were ignited by the pilot light of the water heater. Companies 1, 2 and 6 responded.

Also on Saturday evening, there was a rubbish fire in a dump near Bellevue and Lowell avenue. Companies 1, 2 and 4 responded. While returning from this fire Officer Benassini ran over and killed a small spotted male dog in front of 315 Bellevue avenue.

There were two grass fires on Sunday. They were at the end of Bepler street and at Acton and Bellevue avenues. Companies 1, 2 and 4 responded to both fires.

Last Wednesday afternoon there was a grass fire in a vacant lot on Hanover street between Evergreen and Crocker avenues and on Thursday afternoon there was a grass fire on a lot on Hillcrest drive opposite the Pettigrew Garage. Companies 1, 2 and 4 responded to both fires.

The other fire during the week was south of the Colonial Drive Inn on Monday afternoon. The Colma Fire department was called out.

Another false alarm during the week was on Friday afternoon when Companies 1, 2 and 4 responded to an alarm turned in from a box at Evergreen and Brunswick street.

Gets Jail Sentence

Frank W. Nye, of 6925 Mission street, was sentenced to serve 30 days in the county jail at Redwood City on Tuesday by Judge Sweeney.

Nye was arrested early Tuesday morning on a charge of being drunk in a public place.

Recreational Activities For Next Week

Special Events

June 30 to July 5—"Outing and Patriotic Week."

Monday, June 30—Physical fitness class for women, at high school gymnasium, 8 to 9 p. m.; badminton.

Tuesday, July 1—Free movies at high school auditorium, 10:30 to 12:30 p. m.; cowboy serial "The Last Frontier" plus color cartoon and sports films; teen age basketball in evening.

Wednesday, July 2—Hike and beach party and a day of games and fun at Thorntons Beach. Party will leave from Marchbank Park at 10:30 a. m. Bring your lunch. An opportunity will be had to roast wieners. Other information can be had from the local playground directors. Badminton in evening at high school.

Thursday, July 3—Chorus practice, elementary school age, high school music room, 7:30 to 9 p. m.; adult basketball in evening.

Regular Events

Organized and free play in activity of your choice, Monday through Saturday, 10 a. m. to 5:30 p. m.

Playgrounds open—Marchbank Park, Lincoln Park, Jefferson Union High School, Crocker Elementary, and Jefferson Elementary.

Handicraft instruction in 20 crafts at the high school every afternoon Monday through Friday from 1:30 to 3:30 p. m. and at Lincoln on Wednesday morning, Jefferson on Thursday morning and at Crocker on Friday morning. Wood carving, wood burning and decorative papers will be featured next week. Playground directors have the complete schedule.

For further information on any activity see the nearest playground director or phone the recreational office, JUNiper 4-2510.

SERVING ABOARD THE USS JUNEAU

Lyle E. VanDerWerff, electrician's mate, third class, son of Mr. and Mrs. A. VanDerWerff of 1135 Brunswick street, is serving aboard the light cruiser USS Juneau, which is touring the Mediterranean area.

The Juneau, one of the newest ships of the Atlantic Fleet, has visited Gibraltar, Venice and Pola, Italy, and Trieste.

While at Trieste, crew members were granted leave to visit Switzerland and Paris, in addition to local resorts.

Eagle Bowlers Tie For Second Place In League

The Daly City Eagles Aerie 1848 defeated first place Borden's Milk last Wednesday evening in their league bowling meet. The Eagles are now tied for second place for the end of the first half round. Next week, the Eagles will start the second half and will make a strong bid for second place.

The results of the meet were 812, 796 and 904 for the three series. The high scorers were Julie Selmi 525, George L. Rosalia 510, Guido Lazzari 499, Nate Pearlman 487 and Dick Crane 419.

Boy Scouts Find Unopened Safe

Two Boy Scouts of Troop No. 106 found an unopened safe near the dip in Highway No. 1 on Tuesday afternoon. The boys, both 12 years old, are Joe Lewkowitz, of 501 Vista Grande avenue, and Gregory Ninnis, of 500 Vista Grande avenue.

Chief Sunderland and Deputy Lynch investigated but as the safe was located outside Daly City the case was turned over to the sheriff's office.

Boys Of Den 16 Enjoy Week End Trip

The boys of Den 16, Cub Pack 36, B.S.A., were the guests last week end of Dr. and Mrs. Earl White at their summer home, "Casa Blanca," in San Geronimo. The week end was spent in swimming, hiking, and games.

The following boys attended: Dick Brown, Dick Hopman, Bill Christie, Jerry Wacks, David Ward, Carl and Bert White, Harry Miller, Dick Hiett, and Don Williams.

Mr. and Mrs. P. Jennings, Mr. and Mrs. R. Christie, and Dr. and Mrs. E. White accompanied the boys on their outing.

Council Approves Application For New Taxi Venture

Permits to operate three taxicabs by the Daly City Royal Cab Co. were approved by the city council at its meeting last Monday. Co-partners in the new venture are John Griffith, 2010 48th avenue, San Francisco, August Seiler, 64 Willits street; Albino Marcicchi, 44 Shakespeare street; and J. W. Anderson, 381 Winchester street.

The location of the cab stand is at the corner of Bepler and Mission streets. The three cabs now in use by the company are a 1942 Ford sedan, a 1938 Cadillac and a 1940 Lincoln Zephyr.

Council devoted most of the time during the meeting to the new budget and salary increases. A record budget of \$320,485.00 was adopted along with salary increases for most of the city employees.

A resolution was adopted transferring \$49,183.95 to the general fund from the gas tax, street improvement, auto in lieu tax and alcohol beverage control funds.

The money was transferred so that the city will have sufficient funds to meet expenses before taxes and state appropriations have been collected in the fall.

Council transferred to the fire protection fund \$750.00 to meet a overdrawing of expenses of \$619.

Wesley Strong, of 149 Bellevue avenue, in a letter addressed to the San Mateo County Health Department a copy of which was sent to the council complained of the alleged dumping of garbage on vacant lots in the vicinity of Frankfort street between Lowell and Gutenberg streets. Strong said that the alleged dumping is unhealthy, unsanitary and depreciated property values in the vicinity. The matter was transferred to the police chief by the council.

Fred A. Collins, the sanitary inspector, in his public health report for May, said there were 121 routine inspections of food and other establishments in Daly City along with 27 sanitary complaints, 3 water samples made and one dog bite investigated.

The matter of the request of the assistant librarian, Mrs. Marcie Trier, for two additional weeks vacation so as to visit relatives in the East was referred back to council. Mrs. Trier is due to go on her regular two week vacation on July 14.

The final results of the civil service examination for the position of garage mechanic were announced by City Clerk Ross. The standings were Joseph E. Intoschi, first; Earl R. Madden, second and Emilio A. Ferretti, third on the eligibility list. The matter was referred to the mayor who will probably make a selection within the next few weeks.

Councilman McHugh introduced an ordinance providing for a change in zone classification from residential to commercial on lot 4 block 15 of the Hillcrest Tract. The measure will be voted on at the next council meeting.

During the council meeting Mayor Battye gave his appreciation to the Recreational Department for their summer program. Councilman Dennis said it was "one of the best in San Mateo county and it is a complete program." However, Battye explained that the program should be broadened in the future so as to include more recreation.

"As it is now," he said, "Marchbank Park is being used only a few hours on Sunday afternoon by the few people who are interested in baseball."

Present at the council meeting were Mayor Battye and Councilmen McHugh and Dennis along with the city attorney and the city clerk.

The meeting was called to order at 8:15 p. m. and was adjourned at 9:20 p. m.

RECORD BUDGET FOR FISCAL YEAR ADOPTED BY THE CITY COUNCIL

Wilbur Fellows Spending Summer In Mexico City

Wilbur Fellows, who graduated from San Mateo Junior College last Friday, is going to have a full summer of conversational Spanish. He is now in Mexico City, D.M., where he is a student at the College of Mexico City. But his main time will be spent among the natives, in the stores or along the roads outside the city brushing up on his language lessons.

Wilbur, who made for an excellent record at San Mateo Junior College, is headed for a career in language work. This fall, back after a summer in Mexico, he will enter the University of California at Berkeley where he will major in languages, especially French and Spanish.

Wilbur left for Mexico on Saturday by bus because he wanted to see more of the country. The first night found him in Los Angeles, and the second night he was in Phoenix.

The young student is the son of Mr. and Mrs. Horace Fellows, of 163 Vista Grande street.

Fuchsia Show Sat., Sunday At Bungalow Nursery

For the first time in the history of fuchsia displays all 135 fuchsia hybrids grown by the late Gustave Neiderholzer will be shown by the Gustave Neiderholzer Fuchsia Memorial association at the annual fuchsia show to be held at Bungalow Nursery, Saturday and Sunday, June 28 and 29.

Additional arrangements will be displayed by members of the San Francisco and San Mateo branches of the American Fuchsia society.

Friends and customers are invited to attend on either day, hours on Saturday being 1 p. m. to 9 p. m.; Sunday hours, 9 a. m. to 9 p. m.

The Bungalow nursery is located on Hillside boulevard, Colma.

Vets Hospital Xmas Committee Is Incorporated

The Veterans' Hospital Christmas Committee of the Peninsula was incorporated last week at a meeting in San Mateo. John J. Fahey Jr., of Daly City, legal advisor of the committee, presented the articles of incorporation.

The committee which co-ordinated Peninsula groups provided decorations and 12,000 gifts for the Veterans' Administration Hospital in Palo Alto last year and staged a ten day Christmas entertainment program.

James J. Kohoe, San Mateo postmaster, was named vice president of the group at its last meeting on June 18. A. H. Sagehorn, of San Mateo, is the president of the group.

ATTEND PARTY - - -

A social outing for members of Ladies Auxiliary Company No. 1, DCFD, on Wednesday, June 25, included dinner at the New Del Monico restaurant. Following the dinner they attended the play "Anna Lucasta."

A record budget of \$320,485 for the coming fiscal year beginning July 1 was adopted by the city council Monday evening. The budget is an increase of \$11,975 over the budget for last year and is more than double the budget of \$158,019 for the fiscal year 1944-45.

However, Mayor Melford D. Battye promises no increase in the tax rate or assessed valuation because of what he calls "economical government." The tax levy per \$100 valuation remains at \$1.296 but there is a strong possibility that this may be raised when the tax rate is set in the fall.

The major budget increases are in expenditures for salary raises. At the council meeting on Monday evening the salary of the city attorney was increased from \$225 to \$250 a month and the salary of the city judge was boosted from \$125 to \$150 a month.

The chief of police's salary was increased from its present \$310 to \$350 a month. The sergeant's new salary is \$285 a month and patrolman will draw from \$235 to \$265 a month beginning July 1. Salary increases in the police department alone count for an increase in the budget of over \$13,000 more than last year's estimate. The police department is allowed \$67,910 as compared with last year's \$54,595.

Salary of the water superintendent has been raised to \$350 a month, while the assistant superintendent will receive \$285 a month and maintenance men will draw between \$230 and \$260 a month. The salary scale for the city hall janitor, park and playground gardeners and poundmaster all are between \$190 to \$230 a month. The salary of the librarian now is from \$185 to \$225 a month.

Council also adopted a resolution raising the salary of the senior clerk in the water department and in the office of the city judge to \$210 a month.

Council also adopted new maximum salary schedules for practically every city employee. An ordinance to increase the salary of the city clerk to \$225 a month was introduced by Councilman Dennis. Council will probably pass on this ordinance at its first meeting in July.

Total salary increases and new appointments amount to approximately \$20,000 in the new budget.

The total anticipated revenue for the new year has been estimated at \$259,980 compared with last year's \$234,280. The largest single increase in revenue is in the sale of water. Last year the revenue from this source was \$85,000. During the coming fiscal year it is estimated that this revenue will be \$100,000.

An increase of almost \$8,000 in the revenue from licenses including vehicle, business and pin ball machines is noted. The new estimated revenue from these sources is \$18,000.

A forecast that the postwar building boom may be over is seen in the estimated revenue from building permits. Last year the revenue from this source was \$5,500 but in the new budget the revenue is estimated at only \$2,000.

However, it is worth noting that more people are paying their delinquent taxes. Revenue from this source has been estimated at \$2,000 as compared with last year's \$6,000.

As no new taxes are anticipated at the present time, revenue from this source has been estimated the same as last year or a total of \$105,680. This includes \$65,680 from current taxes, \$15,040 from the State Employee's Retirement Fund, \$8,640 from municipal bonds and interest, \$5,920 from the fire alarm system reserve fund, \$4,800 from the library maintenance, and \$3,600 from the water works reserve fund.

Revenue from other outside (Continued on Page 8)

MOVIE GANGSTERISM

An effort is being made to induce Hollywood studios to cut down on the production of gangster pictures. Juvenile authorities and others concerned with the high rate of crime involving youngsters, feel that gangster pictures contribute in some degree to lawlessness.

Even though these movies are supposed to emphasize the crime-doesn't-pay theme, they actually incite adolescents in some instances, to emulate screen gangsters.

In addition to their effect on our children, gangster films also give the citizens of other countries a very distorted view of the United States and its people. A statement made by Ingrid Bergman, who now reigns as the First Lady of Moviedom, illustrates the point. Said she:

"When I came to America for the first time I thought the Americans were either millionaires or gangsters. That was what I learned from the American movies. Everything was the biggest in the world, the fastest, or the most money, or gangsters. I had my child with me. I was very worried all the time. I was sure she would be kidnapped the minute I let her out of sight."

"And then I discovered that it wasn't so—that the people here were very much like my own people in Sweden."

Miss Bergman now knows the facts. But not every movie-goer in the scores of nations to which American films are sent, gets the opportunity to come here and find out the truth.

OMINOUS ATOM

It has been a year since Bikini. On June 30, 1946, the first of the Navy's three proposed tests of the atom bomb was carried out. From the standpoint of radio "spectators" it was a "bust." But the explosion of the bomb above the water did plenty of damage. The catch was that so much had been predicted—even a tidal wave or worse—that the effect of the bomb seemed mild by comparison. A few weeks later the underwater blast proved more destructive and spectacular. Since then the Navy has been studying the results of its tests. A few months ago it was reported that 2700 of the 3700 animals from the vessels in Bikini Harbor were dead. But this included those killed for experimental purposes. However, the effects of the radiation resulting from the bomb explosion left no doubt that the atomic weapon was every bit as deadly as it was claimed to be. In spite of all this, in spite of the fact that the threat of atomic warfare hangs ominously over the world the nations are still arguing on how to control it. We had better have constructive action soon since time and the atom will not wait for any man—or nation.

RUSSIAN "CONCESSIONS"

We are not pessimists. But we would be more optimistic about the meaning of Russia's recent concession made in the U.N. on atomic inspection if that concession had been made under different circumstances.

Gromyko declared that the Soviet Union was willing to agree to inspection within Russia by an international inspection commission in connection with the enforcement of an atomic control agreement. Although the Russians have not yet yielded on a number of other vital points, the change in their position on this one is important. But, unfortunately, there is a fly in the ointment even on this concession. That fly is the Hungarian situation. Not a few observers believe Gromyko was instructed to give ground in order to counteract the international ill will created by the Communist coup in Budapest.

The conciliatory move on the atomic problem may be intended to convince the world that the Kremlin wants to cooperate for peace in spite of the unpeaceful conduct of Moscow-directed Communists in Hungary.

After the long deadlock in the U.N. regarding atomic control it is only natural that any concession by the Russians would be hailed. But before we start jumping around and clicking our heels in joy over this apparent progress we had better wait and see if Stalin really means it or is using it as a "perfume" to offset the stench now emanating from Hungary.

EDUCATION BOOM

California universities and colleges, like schools of higher learning elsewhere throughout the country, are hanging up new enrollment records as a result of the free schooling provided veterans under the G.I. Bill of Rights. Educators predict however, that the peak in attendance will not be reached until 1950. California's fall enrollment will be approximately 158,000 as against 132,000 in the spring. Despite the high cost of living and the low government allotments, it is reported that comparatively few vets are dropping out of school for economic reasons. The effects of the veteran's educational program on college attendance will not completely disappear until 1960, but even after that enrollments are expected to stay permanently higher than they ever were before the war.

History Of The American Legion

By John J. Derungs
Legion Field Service

To make sure that the nation's war veterans are getting all their rights under the great structure of state and federal laws it has been instrumental in building up over 28 years, The American Legion maintains a highly-trained mobile corps of full-time, paid observers and "trouble shooters" throughout the United States.

This "task force" is described here today by Comrade John J. Derungs, post publicity chairman, in continuing his portrayal of the organization's rehabilitation machinery to assure efficient service to all veterans and their dependents.

25 Field Secretaries

These observers are the 25 field secretaries of the national field service of The American Legion. They are under the direction of Jack Oakey, with headquarters in Indianapolis, Indiana. They are located in 22 key cities. Each has from one to three states assigned to him. It costs The American Legion more than \$190,000 a year to maintain this check-up force, but it's worth every penny of it. It enables The American Legion to keep its finger on the pulse of all government services for veterans.

American Legion field secretaries maintain their headquarters in the following strategic cities: Manchester, N. H., Boston, Mass., New York City, Buffalo, N. Y., Philadelphia, Pa., Pittsburgh, Pa., Washington, D. C., Roanoke, Va., Fayetteville, N. C., Atlanta, Ga., Columbus, Ohio, Chicago, Ill., Des Moines, Iowa, Sioux Falls, S. D., Little Rock, Ark., Dallas, Texas, Denver, Colo., Boise, Idaho, Los Angeles, San Francisco, Seattle, Wash.

They tour all wards, talk to patients and observe the efficiency of operations in the hospitals. Their trained eyes note the standards of services being rendered veterans, the adequacy and attitude of the personnel, the condition of general sanitation, the preparation and quality of meals and all other institution factors. Through them The American Legion knows what is going on all over the country all of the time.

Upon the completion of each visit, the field secretary prepares a report in triplicate with his suggestions for corrections of any inadequacies or deficiencies. This goes to the field service director who relays it to The American Legion rehabilitation representative at the V.A. branch office concerned. That representative brings it to the attention of the deputy administrator there for action and comment. His reaction is reported back to all interested American Legion officials and the organization follows through to get results.

These American Legion field secretaries according to Comrade John Derungs are continuously making the rounds of visits of all Veterans Administration hospitals and regional offices to ascertain if all veteran claimants and patients are getting every consideration as

Belli Motor Co. Displays New Line Of Chevrolet Cars

Featuring the cab that "breathes," the new Advance-Design line of Chevrolet commercial cars and trucks is on display today at the Belli Motor Co., 7400 Mission street.

"Chevrolet is the largest producer of trucks in the world," M. John Soldavini of Belli Motor Co. declared, "and its new line is undoubtedly the finest in the history of the company. We cordially invite truck owners, fleet operators and others interested in trucks to view the exhibit in our showrooms."

Produced in a wide variety of models to accommodate practically every hauling job, the Advance-Design line of vehicles is manufactured in nine wheelbases with gross vehicle weights (combined weight of the chassis, body and load) ranging from 4,000 to 16,000 pounds.

"Each model in the diversified line has been precision-engineered for a specific load rating, with all component parts designed for the work load and to provide the utmost in safe, comfortable, low-cost transportation."

Re-styled, the Advance-Design series are unusually attractive in appearance and provide more room, more comfortable seats and other improvements for the comfort and convenience of the "man behind the wheel."

Chief of these is the cab that "breathes," in which a new ventilating system circulates fresh air in the cab and keeps windshield and windows free of fog.

Completely welded, instead of bolted, the new cab is much stronger, and its doors have an inner and outer seal. Increased driver comfort is also accomplished through the new three-point type of cab mounting—two body tension and shear mountings in the front, and one shackle mounting in the rear center.

Tenant Farmers

Nearly 30 per cent of the farms in the U. S. are rented and operated by tenants.

GAMES THIS SUNDAY

Colma Senior Boys Club vs. Epiphany
Seniors. Noon. Marchbank Park.

Colma Junior Boys Club vs. Barnett
Printing Co. 2 p. m. Rolph Playground.

Colma Senior Boys Win First Game In S.F. Rec. League

The Colma Senior Boys Club defeated the George Washington Post No. 114 10-7 last Sunday at the Jefferson Union High School field. It was the first contest in the San Francisco recreational department's summer baseball league. The Colma club is a Class A team in the National League.

Leland Micheletti was the hitting star of the local team as he got two home runs and a single. Pitcher Don Mossi struck out 15 batters. Don Lungi hit a double and a single.

The game was originally scheduled to be played at Marchbank Park but a misunderstanding over who was scheduled to play on the field forced the Colma boys to play on the high school field. The league umpire, who is furnished by the Recreational Department, was not able to get to the game because of the change. This may force the game to be played over.

Joe Sarto said today that because of the dispute some of the local boys lost their spirit. Also, he added, the field was not prepared for the game, which may have caused some extra runs for the George Washington team.

This Sunday the Colma team will play the Epiphany Seniors at Marchbank Park at noon.

Colma Boys Club Slams Out 11-3 Win In Sunday Game

Up on a cloud this week are the "big boys" of the Colma Junior Boys club whose first victory against the Rocky Stars came Sunday, June 22, their first scheduled league game, played at Ocean View playground at 12 o'clock. Both teams put on a good show, but the Colma boys proved the better.

All decked out in their brand new blue and white uniforms, thanks to Joe Sarto, the boys ran off with victory on a score of 11-3.

All three runs by the Rocky Stars were scored in the first inning. For the Colma team 5 runs were scored in the first; one in the second; three in the fourth; two in the fifth; making the total of 11 runs.

Sankovich, who pitched for the Rocky Stars, ended up with six strikeouts, against Lynch's 14 for the Colma Boys club.

Center of attraction was the "little big boy," Donald Cecchi, center field. The lead-off batter, Cecchi, who played with a sprained wrist, got a base hit for the first time at bat. With his three times at bat (and by the way the bat is larger than he is) he got one hit and one run.

The Colma Junior Boys club will cross bats with the Barnett Printing Company team on Sunday, June 29, at 2 o'clock at Rolph playground. The boys are really putting their noses to the grindstone

in preparation for the game and will go into it with the confidence that they will do their best, win or lose! And the manager says "It better be win."

Red Squill Effective

Red squill is effective against rats; relatively harmless to humans, domestic animals and fowl. When buying, specify oven-dried red squill, made according to government standards for rat control.

D.C. Merchants Make It Nine Straight Wins

The Daly City Merchants won their ninth straight game last Sunday when they defeated Ray's Inn 3-2 at Marchbank Park. Batting honors went to Lawrence Silvestri who collected three of the seven hits. Fred Fazio, ace hurler for the Merchants, struck out 11 men, gave only two hits.

The Merchants collected one run in the second inning.

Ray's Inn came back and tied the score at 2-2 in the eighth. Then in the end of the eighth Neil Pezzola slammed one out to center field for a hit, and stole to second. Pezzola advanced to third on a fielder's choice on Dick Schultz. Sick got up and hit a high fly to right and scored Pezzola, thus winning the game 3-2.

Next Sunday the Merchants will play at 2:30 p. m. at Marchbank Park against Ace Drum's Club.

Now! LIFE INSURANCE EXPERTS PROVE THAT FORD TRUCKS LAST up to 19.6% LONGER

NOW, for the first time, the methods used by life insurance companies in computing rates have been used to figure out life-expectancy tables for Ford Trucks.

4,967,000 Trucks Studied . . . Wolfe, Corcoran and Linder, leading New York life insurance actuaries, assembled the records of all trucks of the five sales leaders registered from 1933 through 1941 . . . 4,967,000 trucks in all. Then they prepared truck life-expectancy tables in the same

way they prepare human life-expectancy tables for life insurance companies.

Ford Trucks On Top!

The result? Ford Trucks Last Longer! Up to 19.6% longer than the other 4 sales leaders! Why? Because Ford Trucks are built stronger. They're built to last longer!

See us today. You'll see why it'll pay you to place your order for a Ford!

Certified
Proof

What Longer Truck Life Means to You . . . Why It Pays to Wait for a New Ford Truck!

It stands to reason the longer you use a truck, the less it costs to own. That's why Ford Trucks are the top truck value. And, logically, Ford longevity means lower maintenance costs . . . less time in the shop. Any way you figure, you'll get more for your money with a Ford . . . because Ford trucks last longer.

The life-expectancy of a Ford Truck is

13.1% longer than that of Truck "B"
3.2% longer than that of Truck "C"
7.6% longer than that of Truck "D"
19.6% longer than that of Truck "E"

OFFICIAL ACTUARIAL CERTIFICATE

Based on the application of sound and accepted actuarial methods to the actual experience as measured by truck registrations, we hereby certify that, in our opinion, the accompanying table fairly presents the relative life-expectancy of the trucks involved.

Holy Angels Baseballers Take Close Decision

The Holy Angels of Colma defeated the East Oakland's St. Benedicts 1-0 on June 14 in the pigmy class of the Catholic Youth Organization. The game was played in the Oakland ball park.

This makes the ninth game that the local pigmy team has won. Seven of the games were won by shut outs while in the other games the opposition scored only two runs. Two of the games also were no hit no run games.

The latest win was strictly a pitcher's battle between Faustino Quitevis, of the Colma team, and Neal Hickey, of the St. Benedicts. Quitevis was the winning pitcher and in the five inning game he gave up two hits and struck out 14 men. Hickey was touched for only one hit, but three consecutive errors decided the contest.

The Holy Angels scored the lone tally in the fourth frame. Quitevis struck out, but when the catcher dropped the third strike and then threw bad to first the chucker wound up on second. He scored a few moments later when Farro dropped Baker's pop-up near second base.

Members of the Holy Angels Pigmy baseball team are:

Vic Baher jr., catcher; Faustino Quitevis, pitcher; Tom O'Leary, 1st base; Teddy Welp, 2nd base; Bobby McDonald, shortstop; Ritchie McDonald, 3rd base; Jimmy Hughes, outfield; Mario Leveroni, outfield; Alan Drago, 3rd base; Alfie Schenone, shortstop; Frank Bertolo, shortstop; Louis Massoni, outfield; and Floyd Moody, outfield.

The director of the C.Y.O. is the Rev. James McElligott. Coach is Vic Baher sr.

CATHOLIC LADIES SPONSOR WHIST

The monthly whist game sponsored by the Catholic Ladies Aid Society of St. Michaels Parish, 32 Broad street, will be held next Wednesday, July 2, at two o'clock.

Mrs. A. Curtin, is chairman of the event and her committee includes Mesdames M. Bouckhout, E. Baare, L. Buckhoz, N. Chase and D. Cromin.

John Harris Dies In San Carlos

John Harris, a resident of Daly City for 30 years, passed away at the home of his daughter, Mrs. A. J. Mathewson, of 1837 Greenwood street, San Carlos, on Friday. He had been ill for several months.

While a resident of Daly City, Harris lived on Santa Barbara avenue. Several years ago he moved to Burlingame, but during his recent illness he stayed at his daughter's home.

Mr. Harris was the husband of Mrs. Violet L. Harris; father of Mrs. A. J. Mathewson, Mrs. Florence Beale, and the late Ethel L. Harris; grandfather of Judith Ann and Roland Lynn Mathewson, and brother of Mrs. Ethel Johnson, Sidney Harris and Mrs. Lillian Freshman.

Mrs. L. Pezzola, of Daly City, is the sister-in-law of Mr. Harris.

He was a member of Colma-Vista Grande Aerie No. 1848 F.O.E.

Funeral services were conducted this morning from the mortuary of W. C. Lasswell & Co. Interment will be in Cypress Lawn Memorial Park.

Longest Street
Figueroa street in Los Angeles is 27.5 miles long and the longest street in the United States.

Redwood City To Choose Queen For July 4 Event

The final pre-celebration event before the staging of the Peninsula's eighth annual Fourth of July Rodeo and Celebration in Redwood City was ready for presentation yesterday. It will be the Queen's Coronation Ball, to be held at West Bay Motors in Redwood City tomorrow (Saturday) night.

The dance will bring an end to the suspense for four lovely contestants from as many communities on the Peninsula and their backers, for one of them will be announced as winner of the contest to select a queen of the celebration. She will be crowned by Mayor W. W. Hilton in colorful ceremonies during the evening, according to Jack Thomas, deputy county clerk and chairman of the dance.

Dude Martin and his Roundup Gang, of radio fame, will play for the dance, which will last from 9 p. m. to 1 a. m.

The coronation ball is open to the public. Like last Saturday's pre-celebration barbecue which was attended by a record crowd of nearly 1000 persons, the dance is expected to be the biggest such affair in the eight-year history of the Independence Day celebrations in Redwood City, according to Chairman Thomas.

Meanwhile everything was virtually ready for the presentation of the celebration proper, which will open with a colorful parade of floats, horses, marching units, bands and other entries at 11 a. m. July 4. An \$1800 fireworks display to be presented Friday and Saturday nights; free dancing; games; entertainment; concessions, and other features are planned.

New Arrival At Hogerheiden Home

A son was born to Mr. and Mrs. Frank Hogerheiden, of 127 Whittier street, on Friday, June 20, at 5:15 p. m. at Stanford Lane Hospital, in San Francisco. The boy was named Frank.

Maternal grandparents of the son are Mr. and Mrs. Herman Welsh, of Denver, Colorado. Paternal grandparent is Mrs. G. Catrysse.

Last Whist Party For The Season

The American Legion, Daly City Post No. 410, will hold its last whist party of the season Friday evening, June 27, at 8 p. m. at Legion hall, 474 San Diego avenue.

All whist fans of Daly City, both new and old patrons, are invited to enjoy a last game before packing up for their vacation. The amount of interest shown by attendance will determine whether these parties will be continued next season.

New Arrival At The Valletta Home

Undoubtedly the "proudest parents" in Daly City at the present time are Mr. and Mrs. Louis Valletta of 769 Brunswick street. Congratulations are in order on the birth of their daughter Susan Margaret on Friday, June 20. She made her appearance at St. Joseph's hospital at 9:36 a. m. She tipped the scales at 8 lbs. 1 oz.

Paternal grandparents are Mr. and Mrs. Anthony Valletta, of 301 Evergreen avenue. Maternal grandparents are Mr. and Mrs. Arthur Petersen, of Ceres, California.

Many Trees

On the 30-mile trip from Marion, N. C., to the top of Mt. Mitchell, a traveler encounters more species of trees than he would in crossing Europe from the British Isles to Turkey.

"YOWP"

he says,

"who swiped the hot water?"

Put an end to "yowps"—install a Family-Size GAS WATER HEATER!

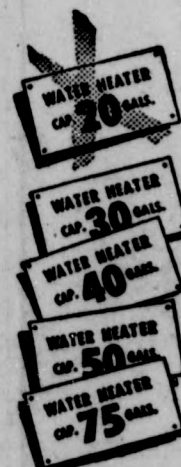

Who likes a chilly spray of cold water down the spine? It is certainly something to "yowp" about when you expect to relax with a steamy-sudsy, lazy bath and instead draw ice water.

When the hot water supply in your home "runs out" it means that the family use of hot water is bigger than your water heater can deliver. And the solution is simple—see your gas water heater dealer and have him replace your present heater with a new Automatic Gas Water heater with a big enough tank. Or use the chart below to help you "size-up" the hot water supply needed for your home and family.

Den Mothers Are Feted At Dinner By Boy Scouts

As a final social event for the Cub year, Pack 36, B.S.A., entertained the Den Mothers at dinner at Simpson's last Thursday evening. Cubmaster Irwin Smith was the very genial toastmaster of the evening and introduced each Den Mother. Mr. and Mrs. P. Jennings, Mr. and Mrs. R. W. Christie, Dr. and Mrs. Earl White, and Mr. and Mrs. Ted Hopman represented Den 16.

After a delicious dinner, dancing was enjoyed by all those present. This brought to a close a delightful year for both the Cubs and parents of Pack 36, with Irwin Smith as Cubmaster and Vic Yerby as entertainment chairman and baseball coach.

Keep Car Lubricated

Because proper lubrication at regular intervals increases the life of an automobile, the California State Automobile Association advises car owners to guard against forgetfulness by placing lubrication problems in the hands of a reliable service man.

Those pieces of land situate in the County of San Mateo, State of California, described as follows:

1. All of 89th Street and all portions of White Street lying South of the Southerly line of Lots 16 and 17 said streets and lots being as shown upon that certain map entitled "A portion of the S S White Tract" filed in the office of the Recorder of the County of San Mateo, State of California, in Book E of Maps at Page 21, more particularly described as follows:

BEGINNING at the point of intersection of the Northerly line of Midway Avenue with the Westerly line of White Street, said avenue and street being as shown upon that certain map entitled "Tract No. 573, Broadmoor Village, Map No. 3" filed in the office of the Recorder of the County of San Mateo, State of California, in Book 27 of Maps at Pages 5 and 6; thence from said point of beginning South 0° 21' 30" West along said Westerly line a distance of 313.32 feet to the Southerly line of 89th Street; thence South 89° 38' 30" East along said Southerly line a distance of 285.75 feet; thence North 0° 21' 30" East 60 feet to the Northerly line of 89th Street; thence North 89° 38' 30" West along the said Northerly line a distance of 225.75 feet to the Easterly line of White Street; thence North 0° 21' 30" East along said Easterly line a distance of 253.32 feet to the Northerly line of Midway Avenue; thence North 89° 38' 30" West 60 feet to the point of beginning.

EXCEPTING THEREFROM a parcel of land 50 feet in width extending from the Easterly to the Westerly line of White Street and lying 25 feet on each side of the center line of Midway Avenue, as shown on the aforementioned map.

ALSO EXCEPTING a strip of land 50 feet in width extending from the Northerly to the Southerly line of 89th Street and lying 25 feet on each side of the center line of Nimitz Drive, as shown on the aforementioned map.

2. All portions of the County road from Colma to the Ocean lying within Section 11, Township 3 South, Range 6 West.

3. All portions of Alder Avenue lying South of the Westerly prolongation of the Northerly line of Block 8, said Alder Avenue and Block 8 being as shown upon the map entitled "Tract No. 529—Garden Village" filed in Book 23 of Maps at Page 10, San Mateo County Records.

On the said day fixed for hearing, the Board of Supervisors shall hear the evidence offered by any party interested and at such hearing shall determine whether or not the above described highways or portions of highways is unnecessary for present or prospective public use.

DATED: June 17, 1947.

W. H. AUGUSTUS,
Clerk of the Board of Supervisors, San Mateo County.
(Pub. June 26; July 3, 1947.)

Recreation Head Announces New Evening Classes

Additional evening recreational classes have been announced this week by E. J. Rose, city recreational director. A physical fitness class for women is being held on Monday evenings from 8 to 9 p. m. at the Jefferson Union High School gym. Tumbling classes for boys and girls are also underway at the high school gym. If enough adults are interested in folk dancing, classes will be held on Wednesday evenings between 7 and 9:30 p. m.

The physical fitness class is a good opportunity to properly exercise yourself and have fun while doing it. Information may be secured from Miss Mary Falbo, Monday night recreational director at the gym.

The tumbling classes for boys and girls are under the direction of Miss Falbo and Frank Verducci. Students now enrolled in the class are learning how to do rolls, head springs, balancing and many other stunts. Last Tuesday a movie was shown at the high school which explained many of the tumbling exercises.

Anyone interested in folk dancing instruction in the evening may enroll with Miss Falbo on Monday evening between 7 and 9 p. m. It is hoped that the classes will be held on Wednesday evening.

Boys and girls interested in singing in the chorus are reminded that the chorus practices in the music room of the high school every Thursday evening from 7:30 to 9 p. m.

Two new tournaments will be started every two weeks during the summer. The tournaments now underway at each playground are basketball, free throwing and checkers. Separate tournaments are held for those children under ten years of age.

Local Woman And Alaskan Man Unite In Marriage

Mrs. Gladys Smith, daughter of Mrs. Margaret McDonald, of Daly City, became the bride of Hugo Schmolck, of Ketchikan, Alaska, on June 13, The Rev. William Harberts, pastor of the Grace Presbyterian church, officiated.

The bride was attired in a brown suit and wore an orchid corsage. Immediately after the marriage the couple traveled to Southern California for a short honeymoon. They also drove to Prince Rupert, British Columbia, then travelled by boat to Ketchikan, Alaska, where they are making their home.

The new Mrs. Schmolck, is a widow of the late William Smith. She lived in Daly City for more than thirty years and until her marriage was employed in the office of Hunt & Co. in San Francisco.

The new bride also is the daughter of the late George E. McDonald and sister of George E. McDonald Jr.

Mrs. Dorothy McDonald was her sister-in-law's matron of honor and little Doreen McDonald was her aunt's bridesmaid. Ralph Bartholomen, of Ketchikan, Alaska, was the best man.

Mr. Schmolck was in San Francisco to attend the Rotary International convention and was the first Rotarian attending that convention to apply for a wedding license. He is in the plumbing and electrical engineering contracting business in the Alaskan city.

Lucille Shreve And Thos. Tromborg Jr. Plan June Wedding

Another June bride will be Lucille Shreve, daughter of Mrs. E. H. Shreve, 172 Miriam street, whose marriage to Thomas Tromborg Jr., son of the Thomas Tromborgs, of 174 Moltke street, will take place on Saturday evening, June 28. The appointed ceremony will be at the Good Samaritan church, Potrero near 25th at 5 o'clock. Immediately following the ceremony a reception will be held at the Masonic temple, 17 Hillcrest drive.

For maid of honor, Lucille has asked La Verne Torkelson. Bridesmaids will be Doris Olson, Janet Petersen, Winifred Evans, Jackie DeLosa, Rosemarie Attenisla.

Bestman will be Gil Selvidge; ushers, Ed Milano, Jim Pedersen, Bill Quickert, Al Seiler, Jim Meidel.

Red Cross Swim Classes Start At Jeff High Pool

The swimming lessons at the Jefferson Union High school swimming pool are progressing very rapidly with 140 enrolled for the seven morning classes during the first session which started June 23.

The eight-thirty class of non-swimmers under the age of ten is a little ahead of the nine o'clock class of the same ability and age, but by the end of the week there probably will be no difference in the two groups. When the boys and girls first entered the class they could neither swim nor float. Now they can float on face and back, kick, and swim a very short distance except for a few who were very much afraid of the water. Almost all can jump into shallow water feet first and dive in head first (even if somewhat flat yet).

The ten o'clock class is made up of non-swimmers from six to twelve years of age and is the class for late registrants for the first campaign. They have accomplished about the same as the corresponding classes at eight-thirty, nine, and eleven o'clock.

The eleven o'clock class is a group of non-swimmers over eleven years of age. This class has been able to improve more rapidly than the younger children because of better coordination and breath control.

In the nine-thirty class, all have swum at least forty feet and have had an opportunity to learn to tread water, jump and dive into deep water. Most of these boys and girls will be able to pass their beginner's test.

The ten-thirty class has completed the beginner's test and is practicing on the elementary back stroke and American crawl. Next week, the other strokes and dives needed in order to pass the intermediate test will be taught.

The eleven-thirty class has been divided into three groups: diving, life saving, and swimming. Only those who can swim at least one hundred fifty feet are in this group. They will work toward passing the life saving test or the intermediate or swimmers' test.

Miss Juanita Young, the instructor in charge of the campaigns says that this is expected to be one of the most successful campaigns she has conducted due to the small size of the classes and the intense interest shown by the students. Miss Young has taught Red Cross swimming lessons for almost twenty years in California, Oregon, Washington, and Utah. She is a teacher at the high school during the school year. She conducted the first four campaigns in the Jefferson Union High School swimming pool and

then missed the next three while in the army. Last year she returned while on terminal leave from the army to take charge of the 1946 lessons. This is the ninth annual campaign for the high school pool.

Miss Young is assisted by one life saving and water safety instructor and three life guards. Miss Mary Falbo, a graduate of the Jefferson Union High school and a life saving and safety instructor, is teaching the class in life saving. She is also currently employed by the Daly City Recreation Department. Miss Falbo has taught in previous summer campaigns at the high school. Miss Rosemarie Attenisla is an excellent swimmer and is a recent graduate of the school.

The swimming lessons are sponsored jointly by the San Mateo County Branch of the American National Red Cross and the Jefferson Union High school. They are held in cooperation with the Daly City Recreation Department.

In the next two campaigns there are a few openings for non-swimmers, and a number of openings for beginners, intermediates, and swimmers wishing to take life saving or more advanced swimming and diving. The second campaign starts July seventh and meets on Monday, Wednesday, and Friday for four weeks. The third campaign starts July 8 and meets on Tuesday, Thursday and Saturday for

Honor Pathfinder
George Lathrop, driver on the famous Cheyenne-Deadwood stagecoach trail, is buried near the point in eastern Wyoming at which U. S. 20 and the old line intersect. An official monument marks the grave.

four weeks. Registrations must be made in advance.

A class for ladies will be held on Wednesday evenings from seven until seven-thirty starting July 9 and continuing until September 10. Registration is required. These classes are on the same basis as the morning classes and are one-half hour long. Since Wednesday evening is reserved for ladies only, many may wish to remain in the pool until it closes at 9:30.

Additional information may be obtained from the Jefferson Union High school swimming pool office or by calling JUniper 4-2510 and asking for Miss Young or Mrs. Van Vliet.

Final Notice to War Veterans

War Veterans owning property in San Mateo County, and entitled to exemption as provided by Section 11 of Article XIII of the Constitution of the State of California, must file with the County Assessor not later than 5 o'clock P. M. NEXT MONDAY, JUNE 30th.
MARTIN J. FLYNN,

Newlyweds Return From Honeymoon In Southern Calif.

Back from their honeymoon in Southern California are Mr. and Mrs. Burt Yeoman who were married on Sunday afternoon, June 8, at Our Lady of Perpetual Help church. The bride is the former Miss Jennie Giusti.

The Reverend Father Adrian McKenna officiated at the double ring ceremony as the couple exchanged vows at 3 o'clock before the flower-decked altar. Carnations and stock were used in the floral decorations.

For her bridal ensemble Miss Giusti chose a white satin pearl-beaded gown with a train. Her long veil was held in place with a pearl crown.

For a bouquet Jennie carried a prayer book covered with a lavender orchid and white bouvardia.

Attendants were Miss Marjorie Schreiber, maid of honor; Misses Corrine Cuneo and Nadine McDonnell, bridesmaids. The girls donned American beauty faillie gowns fashioned with cap sleeves. They wore matching hats.

They carried bouquets of pink and lavender sweet peas with some colored flowers on their hats.

Bestman duties were performed by Earl Johnson. Ushers were Arnaldo Delia and William Preciado.

The reception for some 300 guests was held at the IASO hall, on Russia avenue, in San Francisco. There was dancing and refreshments for everyone including a delicious 4-tier wedding cake.

Jennie is the daughter of Mr. and Mrs. Frank Giusti, 221 S. Parkview avenue. Burt is the son

Check Your Social Security Number, Says E. J. Foley

"Wrong social security numbers on social security wage reports cause trouble to the workers, employers, and the social security administration," commented Edward J. Foley, manager of the local social security office today. "Now that the end of the second calendar quarter of 1947 is approaching it is urged that all employers be sure they have social security account numbers for their employees who worked for them during April May and June. Also, that the number and name recorded agree with the number and name on the wage earner's social security card."

"The number of incorrectly reported names or numbers causes concern to us. Since social security benefits are based on wages reported by employers, it is important that each worker show his social security card to his employer when he starts working. The reports for this present quarter will be due the collector of internal revenue in July. If they are complete and accurate, later call-backs will be eliminated and time and trouble saved along the line."

of Mr. and Mrs. Burt Yeoman, of Daly City.

Gloria Fontana And Joseph Belli Unite In Marriage

The loveliest of June brides was Miss Gloria Fontana, charming young daughter of Mr. and Mrs. Valerio Fontana, whose marriage to Joseph Belli, son of the Joseph Bellis of Colma, took place on Sunday, June 22, at 2 p. m. The appointed locale for the ceremony was the quaint Holy Angels church in Colma. The altar was banked with white gladioli.

Gloria, escorted by her father down the aisle decorated in its full length with white flowers and streamers, approached the altar wearing an ivory satin gown fashioned with fitted bodice, hooped skirt, off-the-shoulder effect and long detachable sleeves. The heirloom veil was simply pinned to her head and left to fall gracefully over her shoulders. She carried a cascade bouquet of white orchids and lilies of the valley.

The matron of honor and bridesmaids were similarly frocked in white organdy old-fashioned dresses and carried cascade sweetpea bouquets. They wore butterfly orchids in their hair. Maid of honor duties were carried out by Pauline Delucchi of Burlingame. Bridesmaids were Terry Fontana and Marissa Di Lupidio.

As flower girl little Dale Dell Artino was dressed similar to the bridesmaids and carried a basket of baby roses. Ring bearer was Mark

Court St. Mary C.D.A. Installs New Officers

At the last meeting held by Court St. Mary No. 1155, Catholic Daughters of America, the following officers were installed by Irene Kenneally, assisted by Helen Rode: Jeanette Lacchini, grand regent; Josephine Pyne, vice regent; Magdalene Savage, prophetess; Camille Clarke, lecturer; Marilyn Brown, financial secretary; Frances I. Tamony, historian; Christine Michelson, treasurer; Ida Forest, monitor; Anna Vaughn, sentinel; Dana Lee Brown, organist; trustees, Margaret Keegan, 3 years, Mary Baker, 3 years, Virginia Rengstorff, 2 years.

After the installation of officers, visiting grand regents and members were introduced and welcomed.

Grand Regent Jeanette Lacchini appointed the following chairmen to serve for the coming year: Josephine Pyne, sunshine; Katherine McDermott, publicity; Helen Rode,

Montoblio.

Robert Belli, stood with the groom as best man. Ushers were Elio Fontana and Jerry DeMatel.

A dinner-reception for 125 guests was held at the Italian Room at the St. Francis hotel commencing at 6 o'clock.

The couple are now honeymooning at Carmel, Santa Barbara and all points south.

Glycerine Coatings

Glycerine, which until recently, had seldom been seriously considered in connection with the products of the paint, varnish and lacquer industry, has become an important factor in the manufacture of protective and decorative coatings. This is due to the extensive use of glycerine in the manufacture of synthetic resins, including ester gums, which, in turn are used in the formulation of important coatings, many of them highly specialized.

New Linings

If the old lining must be ripped out, take care not to stretch or tear it, because the pieces when pressed will serve as the pattern. Attach the new lining loosely, as in a new coat, so as not to draw up the coat.

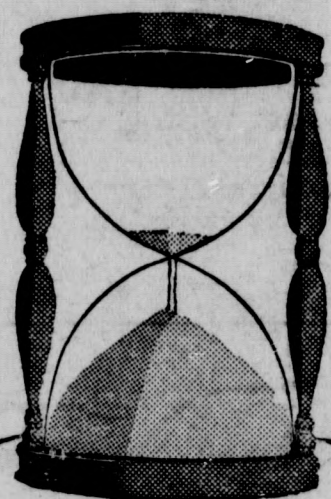

sewing; Anna Ennis, entertainment; Magdalene Savage, social; Virginia Rengstorff, legislature; Evelyn Weckerle, extension; Christine Michelson, whist; Agnes Anderson, telephone.

Junior Past Grand Regent Camille Clarke was presented with a beautiful madonna vase filled with flowers, and the usual gift from the court to outgoing grand regents. Mrs. Clarke thanked all for the gift, and then gave an outstanding report on the Catholic Daughters Conference held in Alameda, at which she was a delegate.

After the meeting was closed all adjourned to the banquet hall where lovely refreshments were served under the chairmanship of Magdalene Savage.

Court St. Mary will be on vacation until Thursday, August 21.

Record Budget

(Continued from Page 1)

sources totals an additional \$154,300 and includes \$10,300 from the state apportionment and \$11,000 from court fines. In all, revenue from these outside sources, including licenses, water department and utility franchises, is some \$25,700 more than last year's revenue.

On the expenditure side the largest increase, outside of the salary boosts, is in the expenditure of \$3,250 for a new bookkeeping machine and equipment in the water works collection department.

Some \$24,055 is provided for parks, playgrounds and recreation. In the recreation department \$8,500 of their \$12,000 budget is for salaries and wages and this leaves little more than \$1,250 for equipment.

Decreases, however, are noted in the municipal garage appropriation. The new estimate is \$10,000 less than last year's budget mainly because a \$8,500 new building was provided last year. Electricity and traffic signals are estimated at \$250 instead of last year's \$500 and supplies and repairs on the fire alarm system has been cut from \$300 to \$100.

Still provided for in the budget is \$16,000 for the purchase of land for the war memorial site. A new item is the waterworks reserve fund of \$3,600 provided to replace obsolete and worn meters. The fire protection fund has been boosted from \$8,400 to \$11,400.

Other items in the record budget are: general administration, \$14,470; city clerk, assessor, and tax collector, \$10,140; city treasurer, \$1,300; city attorney, \$3,000; city judge office, \$4,735; office of city engineer, \$150; city purchasing office, \$795; city hall and grounds upkeep, \$4,930; city pound, \$3,580; fire department operations, \$6,535; municipal water works, operations, maintenance and collections, \$56,855; streets and sewers, \$28,525; weed abatement, \$1,805; garbage disposal, \$15,000; personal administration, \$1,100.

The cash balance at the end of this month has been estimated at \$137,950 while the transfers and disbursements for the year should approximate \$320,485. This should give the city an estimated balance in all funds of approximately \$77,445 at the end of this month. But only \$21,465 of this fund will be available for general government purposes until this November when taxes will be collected. This means that all departments must stay within the budget and be economical.

Crocker P.T.A. Picnic Success

The picnic of the Crocker P.T.A. was held this Tuesday at San Mateo Park with many members and children present. Mrs. Frances Haussler reported the day a success. The weather was grand and those who attended the picnic had an enjoyable time playing games and doing some sewing.

It was suggested that the P.T.A. group have some more get-together picnics this summer.

OFF THE BLOTTER . . .

Two automobiles were temporarily stolen last week during another busy period for the local police force.

Edward Gustafson, of 30 Hillcrest drive, reported his 1936 Packard sedan was stolen in front of the Silver Moon on School street early Monday morning. The car was found on Monday afternoon four miles north of Sharp Park. Deputy Sheriff Edward Young of Sharp Park states that the front part of the car was damaged and a part of the panel board was cut when he found the car.

Last Wednesday evening a 1946 Chevrolet coupe belonging to Stanley R. Flowers, of 49 Los Banos avenue, was reported stolen from his garage. The car was found in Santa Cruz county stripped of the car radio on Saturday afternoon.

Mrs. Wilma E. Proper, of 7108 Mission street, was given a bad check on Wednesday afternoon by two men and a woman who came into the W & W Radio and Houseware Store and purchased a portable radio. The check was made out for \$60.89 and was signed by a G. J. Cordroy, of 437 30th avenue (no address). One of the men was driving a Plymouth sedan with Florida license plates.

The Imperial Grill at 7384 Mission street was broken into on Wednesday evening, according to C. F. Rogers, the proprietor. Stolen were \$22.50 in cash, several cartons of cigarettes and a bottle of wine. The store was entered

through a rear window and the burglars left by the front door.

A piece of granite wrapped in cellophane was thrown into the front window of the New Daly City Market on Wednesday. Marco Raffo, the proprietor, of 398 Templeton avenue, says no entry was made and can think of no reason for any action of this sort against him. The window was broken sometime last Wednesday evening.

Five year old Jimmie Richards, of 25 Bepler street, ran into a car last Wednesday evening while riding his scooter down Mission Circle. He was cut above the right eye and later taken to Junipero Serra Hospital for treatment.

Ivo List, of 1019 Desmond street, San Francisco, hit a tow truck belonging to Pettigrew's Garage on Sunday evening, while backing down Vendome avenue. List was given a tag for violation of section 543 of the C.V.C.

An injured dog was found on a curb on Mission street, near East Vista avenue, on Sunday evening. The dog was taken to Dr. McIntyre's Pet Hospital and left there.

Police Chief Sunderland reports that the police department has about six apparently abandoned bicycles that have been brought in from time to time. Anyone who has lost a bicycle recently, and can identify it, is welcome to check with the police department. Maybe your lost bike is there.

Marvin and Glen St. Ores, of 27 Wilson street, reported that while

Plan Wedding This Sunday At Local Church

On Sunday, June 29, marriage vows will be exchanged by Miss Shirley Jones, daughter of Mr. and Mrs. Harry L. Jones, 368 Vista Grande avenue and Jeffrey Yates, son of Mr. and Mrs. Joseph Yates, 614 - 13th street, Richmond, California.

The ceremony will be performed by Reverend William Harberts at 4 o'clock at the Grace Presbyterian church.

At six o'clock a reception will be held at Little Italy hall, 6229a Mission street.

Shirley has asked Mrs. Fern Jones to be her matron of honor and Misses Mary Falbo and Charlotte Plumb, bridesmaids.

Bestman will be Robert Anderson; ushers, Norman Parker and Jerry Jones.

swimming at Thornton's Beach on Saturday their car was broken into. Stolen were two sports coats, two sports shirts and \$4.50 in cash.

While patrolling the dip in Highway No. 1 on Saturday Officers Welsh and Walsh found a pair of men's blue slacks and a Kodak junior 620 folding camera in a brown case.

Crocker School Graduates Enjoy P.T.A. Luncheon

The 42 graduates of the Crocker school along with their teacher, Miss Marjorie Tobias, enjoyed a luncheon given last Wednesday by the Crocker P.T.A. at the school.

The class sat down at the table which was decorated in the school colors of green and white. During the cutting of the large decorated graduating cake each officer of the class made a wish for the future success of the class.

Magdaline Merino was presented a medal by Mrs. Olga Bordson, representing the American Legion Auxiliary, for her poppy poster. Patricia Astring entertained with several piano selections. Jean Landon and Helen Edwards sang solos for the group.

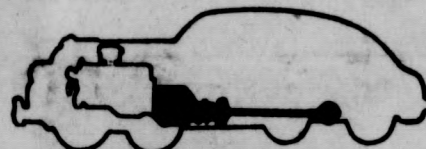

Melvin Dubin And Wife Honeymooning At Lake Tahoe

Melvin Dubin, of Dubin's Men's shop, 6274 Mission street, and Louisa Nathan of San Francisco were married on Sunday, June 22, at 4 p. m. at the home of Rabbi Burnstein on Washington street in San Francisco.

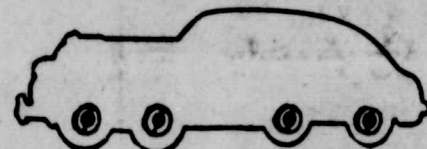

The couple are honeymooning at Lake Tahoe.

DE SOTO

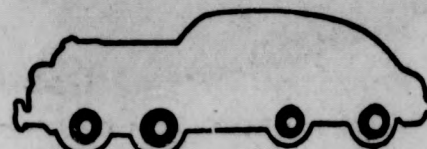

"Best car I ever owned, regardless of Price"*

gyrol Fluid Drive with Tip-Toe Hydraulic Shift enables you to drive all day without using clutch or gear shift lever. Touch the brake to stop . . . then step on the gas to go!

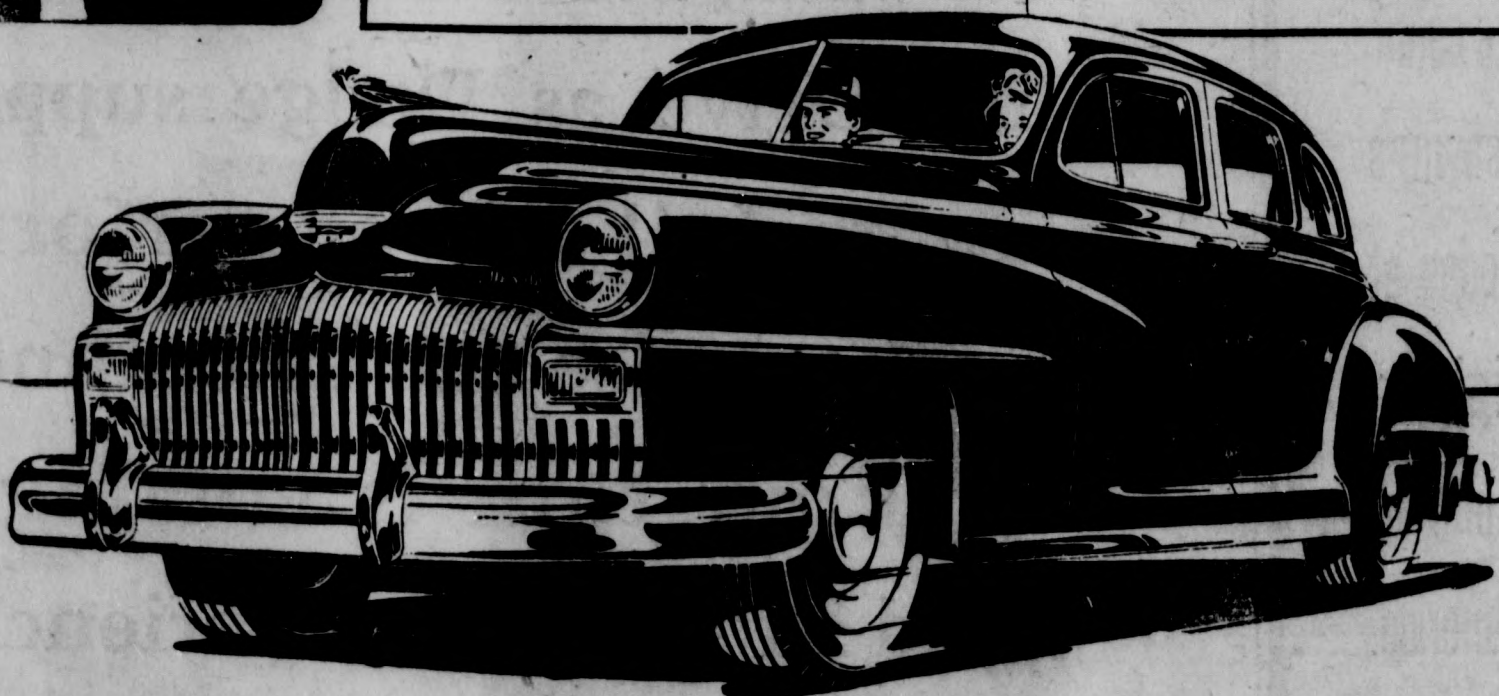

Improved Brakes. With these Safe-Guard Hydraulic Brakes you'll enjoy smooth, straight-line stops with far less pedal pressure. Your linings will last longer, too.

Safety-Rim Wheels. These hold tire and tube in place in case of a blow-out, even at high speed. They help you come to a safe, straight stop. A vital safety feature.

Level Floating Ride. Long trips in a DeSoto will leave you fresh, and roughest roads will seem smooth, thanks to many new engineering developments which level out your ride.

*The overwhelming majority of new DeSoto owners made this statement in the latest nationwide poll. As the opinion of thousands, it adds up to one of the greatest tributes ever paid any car. See DeSoto and see for yourself.

It will pay you to give your present car good care. Skilled service may save you big repair bills later and increase your car's trade-in value. We have the equipment, trained mechanics and factory-engineered parts your car needs.

Amputee Veterans Eligible For Autos

Amputee veterans of World War II were reminded by Floyd D. Granger, Veterans Service Officer, that they must have their eligibility certified by June 30 in order to obtain one of the free automobiles granted them by the federal government.

Congress appropriated \$30,000,000 to pay for the cars, up to a maximum of \$1,600 each, and the law provides that the unused portion of this fund will be cancelled June 30.

Granger stressed that delivery may be made after June 30 for those certified as eligible before that date. Encumbrances will be placed against the appropriation for all amputees duly certified before the deadline and these encumbrances will not be cancelled out with the unused portion of the appropriation.

Veterans who lost, or lost the use of, one or both legs are eligible

Kern River Trout

Anglers took trout up to 27 inches recently from the Kern River in Kern county and Tulare county area, reports the National Automobile Club. Fly fishermen took several limits of large trout last week from the section of the river that lies above several limits of large trout last week from the section of the river that lies above Fairview, Tulare county.

to receive the automobiles. If desired, a tractor or other implement may be requested in lieu of an automobile.

Additional information and assistance in filing for the free cars may be secured at the Veterans Service Office in the county courthouse located at Redwood City.

Procession Will Open '47 State Fair

Heralding the coming California centennials, a colorful processional depicting the history of the state will open in the 1947 California State Fair in Sacramento the night of August 28. The Fair will run through September 7.

Adrian Awan, noted Hollywood producer of outdoor plays and pageants, will stage the processional, in which the participants largely will be riding groups, organizations, and societies from over the state.

Phil Whiting, associated with Awan, is now in central and northern California lining up these

groups. He has talked to chambers of commerce in San Jose, Monterey, Napa, and Salinas and has plans to visit several other cities.

Groups or organizations able to put on old west displays, acts, dances, horse parades, wagon trains, or similar shows are asked to communicate with the California State Fair Grounds, Sacramento.

There will be a cast of 1,000 in the processional with a trained chorus of 100 voices and several

screen and radio celebrities spotted in key positions. The presentation will be divided into four acts—the aborigines, Franciscans, The Fiesta, and the Argonauts—climaxed by a dramatic ceremony introducing Governor Earl Warren of California.

His speech on California's future will be followed by a dramatization of the state's great industrial wealth—special designed floats representing various industries.

State Begins Curb On Speed Drivers

Speed minded motorists who like to burn up the highways are steering for trouble, according to Edgar E. Lampton, director of motor vehicles, who today announced that all speed laws are to be enforced to curb the rising tide of serious vacation period accidents.

"Our records show far too many crashes are due to excessive speed," Lampton said. "I have advised Chief E. Raymond Cato of the Highway Patrol that special emphasis should be laid on making motorists drive within the safe speed limits prescribed by law. Orders to this effect have gone out to all patrol officers. Our highways are filled with tourists and home folk on vacation trips and they should not be endangered by speed maniacs.

"Newer and more efficient equipment will enable the patrol to apprehend many speeders who formerly escaped. Emphasis also is being placed on arrests for weaving in and out and other violations of rules of the road," Lampton said.

The biggest traffic jam in the nation's history will occur during the Fourth of July week end holiday this year, the National Safety Council predicted today.

To meet the threat of a record-breaking traffic toll, the Council appealed to motorists and pedestrians to "Be Alive on the Fifth" as the keynote of a nationwide campaign against accidents during the holiday.

Close to 30,000,000 vehicles are expected to pack the highways over the Fourth of July, the Council said, and their speedometers are

expected to clock nearly four billion miles during the three-day holiday. This estimate is based on gasoline consumption, which shows mileage this year exceeding even the previous record level of pre-war 1941.

One hundred and thirty other national organizations have joined with the Council in a united effort to prevent a jamboree of carelessness over the Fourth.

The campaign is designed to help public officials, traffic officers and safety leaders in their efforts to curb the holiday death toll.

In asking for public support of the campaign, Ned H. Dearborn, president of the Council, pointed out that a similar coordinated effort last year helped to reduce the July traffic toll 23 per cent below the previous high in 1941.

"Nevertheless," he said, "8,300 persons died from accidents of all kinds in July last year, and as usual the Fourth of July celebration contributed substantially to that figure.

Buildings, Tools Used By Navy Are Given To Schools

Over 75 elementary, secondary, parochial institutions and colleges and universities of California have benefitted through the Navy's program of turning over to State Departments of Education, buildings and installations no longer in use by the Navy.

Rear Admiral D. B. Beary, USN, Commandant of the Twelfth Naval District, has received a letter of appreciation in which Roy E. Simpson, Superintendent of Public Instruction and Director of Education for the State of California, stated, "Through the Navy Donation program, educational institutions have secured a very large amount of machinery, mechanical equipment, and tools which have

been of inestimable value in vocational training, scientific, and related programs. This equipment has not only enriched education in California but it has come at a very critical time, for our schools have been seriously taxed with large enrollments of returning veterans and children of those who came to this state to engage in war activities.

"In expressing our appreciation for the property which has been made available we also wish you to know that we appreciate the cooperation and consideration which has been given representa-

Borneo is the world's third largest island.

tives of the State Department of Education and the educational institutions of this state at all Naval activities."

Schools of the state have purchased surplus buildings from Camp Parks, and Camp Shoemaker for use as shops, class rooms, field houses, and other educational uses. Other installations are to be made available at future dates.

HARPOONS IN MONTEREY BAY SEEK VITALS OF DEEP WATER SHARKS

Shades of Moby Dick. Harpoons again are in style in Monterey Bay. Whales, though, are not the targets for today.

The lily iron now seeks the vitals of basking sharks, and approximately 200 of these deep-water monsters were taken during last January and February.

The basking shark is a great big fish. It grows to a length of 45 feet, and a weight of four tons. They are vegetarians and never have been known to attack man.

These sharks appear, as many as 200 at a time, in the fall and winter months. Last season, about 100 were seen off the mouth of the Salinas River.

Because the sardine catch was off, it was a mighty tough winter for the sharks. The Hovden Packing Company, with plants at Monterey and Moss Landing, pioneered the shark fishery, in hopes of establishing a new industry. The company paid seven cents a pound for basking shark-liver delivered to the shore line.

Fishing boats that normally netted sardines took off for sharks, and some of the boats made money. The biggest shark liver reduced at the Moss Landing Plant weighed 1,552 pounds. In a single month, 116 tons of shark were delivered at Moss Landing.

The eyes of whalers who frequented Sausalito in California's pre-gold rush days would "bug" in amazement if they could witness the equipment used for taking the basking sharks.

Surplus landing craft, of a type well known on the coasts of Europe, Japan and assorted South Sea Isles, are used for shark.

A "plank and pulpit" rigging—consisting of a platform and a tub-like structure in which the "harpoonist" stands—projects over the bow of the landing craft.

An airplane, circling overhead, directs the landing craft to the basking shark.

The harpoon artist thrusts his weapon, striving to hit the shark well forward, preferably through its gills. Off goes the shark, dragging 400 feet of line to which a 50 gallon drum is attached. In its first frenzy the shark threshes wildly, and on at least two occasions last winter slapped the boats half out of the water with its tail. The shark sounds, upon being harpooned, and sinks to the bottom to die of its wounds. The floating barrel marks the spot. Several sharks, struck in deep water, have submerged to a depth that collapsed the barrels.

When the shark fishery first started, a quarter-inch steel cable was attached to the harpoon, with one end fastened to the boat. Rated to pull seven tons, these cables snapped like shoestrings when the shark hit the end of the line.

Lloyd Phillips, manager of the Hovden Packing Plant at Moss Landing, said the shark carcasses are reduced to meal or fertilizer.

The oil has little medicinal value because of its low vitamin potency. The oil, also, was no good for paint, because it apparently never dried. Recently, however, it was determined that the basking shark-liver oil equals the best imported eastern cod-liver oil for use in various leather tanning processes.

The skin of basking shark also appears to have an industrial importance, Phillips said. Exceptionally thick, the skin has to be split before it can be used.

A recently developed tanning process produces an exceptionally fine grade of leather. Comparable with the best alligator leather, Phillips said. And this may be used in the manufacture of purses, luggage and sport shoes.

In skinning the sharks, the hide is removed in segments thirty-inches wide and ten to twelve feet long.

L. Phillips, assistant supervisor of fish hatcheries, California Division of Fish and Game, is now conducting studies at the Hopkins Marine Institute, Pacific Grove, California, to determine the habits and economic possibilities of the basking shark.

Durability Plus

It is difficult to think of any part of the automobile that works harder than the wheel bearing, declares the National Automobile Club. The design and construction of these bearings is worthy of much more admiration than is given it by the average owner.

They are pretty expensive items in the total cost of a car, but motorists are not aware of this fact because they so seldom are called upon to replace such a part. The truth is that bearings are so designed and built that they will outlast the average car in spite of the fact that they seldom or ever are cleaned, generally are underlubricated, and operate for thousands of miles under unduly heavy loads as a result of incorrect adjustment.

Sport Fishing Boats

Sport fishing boats were bringing in heavy catches of barracuda last week from the waters off Los Angeles county. Along with many bag limits of these sizable fish, anglers were bringing in large numbers of white sea bass and a few yellowtail.

U.C. Research On Life Process Revealed

Man has a clearer insight into photosynthesis, the process whereby Nature maintains human existence and all other life on earth, as a result of atomic research reported by University of California scientists.

Photosynthesis is the process whereby green plants, with the aid of sunlight and the green plant pigment known as chlorophyll, convert carbon dioxide and water into sugars, starches, carbohydrates, and other energy substances.

The research, made possible by the use of radioactive carbon produced in the nation's atomic ovens and done under the auspices of the Atomic Energy Commission, marks the breaking down with atomic tools of a barrier which has blocked all efforts of scientists to learn about the subtle, swift chemical reactions involved in photosynthesis.

The research revealed the specific intermediate substances formed from carbon dioxide and water prior to the formation of sugar and that the photosynthetic process is similar in reverse to the process of respiration in animals, which involves the breaking down of energy substances. It demonstrated clearly that there are two distinct phases of photosynthesis, one of which does not involve light. It resulted in the first production of radioactive sugar by photosynthesis, and it made possible a more accurate theory of photosynthesis.

The experimental work was under the direction of Dr. Melvin Calvin, associate professor of chemistry, in association with Dr. Andrew Benson and Dr. Samuel Aronoff, of the Radiation Laboratory, and Dr. W. Z. Hassid, associate professor of plant nutrition.

French Class Opens At U.C. Extension

A course in French designed to help graduate students acquire a reading knowledge of the language as required for higher degrees, will be given by University Extension in Wheeler Hall on the Berkeley campus starting Monday, June 30.

The two-time weekly class, taught by Gladys G. George, will stress rapid reading of simple graded material, as well as intensive study of more difficult reading matter.

Further information may be obtained from the University of California Extension Center in Berkeley. First meetings of the class are open to the public without charge.

Flashlight Marketed

The flashlight made its debut in 1898.

Three More Classes Open At U.C. Extension

Conversational German, elements of economics and photography will be among three new courses scheduled to open at the San Francisco center, University of California Extension, the week of June 30.

The course in photography, directed by P. Douglas Anderson, camera expert, will comprise four field trips with practice in portraiture, landscape, marine and other outdoor scenes. The trips will be supplemented by five class meetings devoted to constructive criticism of photographs taken by students.

Dr. Eric Moeller will conduct a weekly class in conversational German, directed to adults with little or no previous knowledge of the language. Emphasis will be on conversation and elementary grammar.

Offered for university credit, elements of economics will be taught twice weekly and will introduce the student to principles of economics, money, credit and banking.

First meetings of the classes will be held at 540 Powell street, San Francisco, between 7 and 9 p. m., and are open to the public without charge. Further information may be obtained at any University of California Extension center.

One-third of the nation's 1946 automobile fatalities occurred on the open highway. Heed speed limits!

Ancient Animal Fragments Found

What they hope are the first bone fragments of a mysterious "hand animal" which left footprints all over the world some 150 million years ago have been found by University of California scientists in Arizona.

Fragments of the pelvis, jaw and skull of an ancient dinosaurlike animal have been studied by Dr. Frank Peabody, of the Museum of Paleontology, who has just been appointed to the University of California South African expedition. The fragments were found in the same levels of sandstone in Arizona deposits as the "hand animal," which is called Chirotherium.

No complete or nearly complete skeleton of the ancient beast has ever been found, although he left wonderfully preserved tracks in England and Germany as well as Arizona. Chirotherium is called the "hand animal" because the tracks of the hind feet look startlingly like the impression of a human hand.

The Chirotherium group of animals, represented only by footprints, are estimated to have ranged in size from that of a modern chicken to a beast standing about six feet high at the hips. A type of reptile and an ancestor to the dinosaur, he was dominant about 150 to 200 million years ago. His appearance has been reconstructed by the analysis of tracks he left.

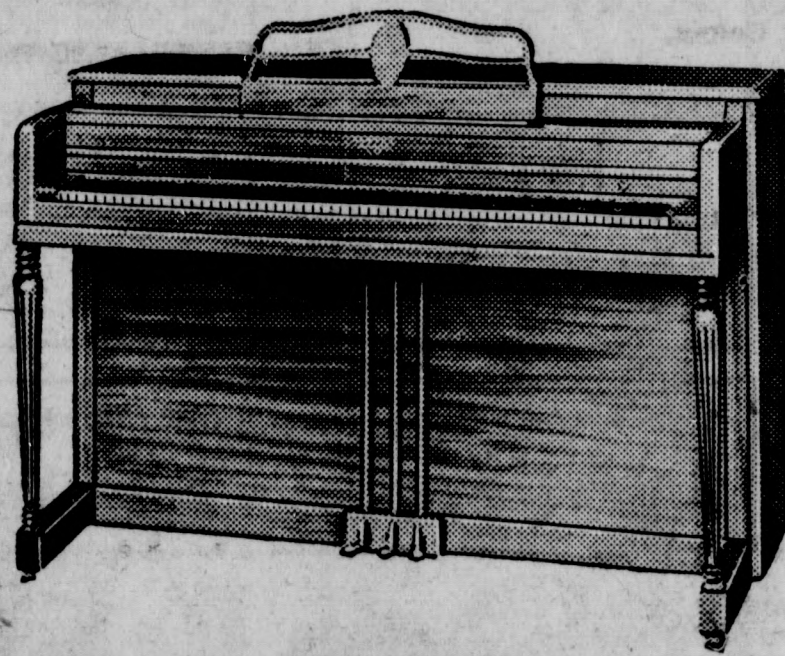

"The bone fragments almost certainly represent Chirotherium," Dr. Peabody states, "but as yet positive proof in the form of a complete or nearly complete skeleton has eluded University of California field parties."

Air Reserve Training Program Will Start July 21

An intensive Air Reserve training program will be made available to qualified reserve officers by the Air Materiel Command including the Sacramento Air Materiel Area at McClellan Field, it was announced by Colonel Arthur W. Vanaman, commanding officer.

The program will include "specialized" active duty and inactive duty training.

Under the specialized active duty training program, AAF Reserve Officers with military occupational specialty of 4902 (Supply Officer) will receive two weeks active duty training during two different periods this summer.

The first period will start July 21, the second August 25. Twenty officers will be on active duty each period.

The General Air Reserve Training program will include both flying and non-flying training, and will be conducted on both an inactive and active duty training basis throughout the year.

The starting date for the inactive duty training at McClellan Field has not been set as yet.

Officers will be assigned to McClellan Field by the 415th AAFBU (RT) at Hamilton Field. Interested AAF Reserve Officers should write or call the Hamilton Field Unit for further details.

Completion of a series of 20 powered flights over the Army Air Forces' Muroc Flight Test Base, California, by the Bell XS-1, to-

gether with delivery of the second of these airplanes to the AAF marks the end of the primary test program and opens the way for further research by the AAF and the National Advisory Committee for Aeronautics with these rocket ships.

It is expected that further flights of the XS-1 will be made to collect additional information about the way airplanes behave in the ranges approaching the speed of sound.

The Army Air Forces is organizing parachutist rescue teams of medical technicians and guides to be used in operations of the 10th Rescue Squadron in Alaska.

Present Era Seen As Prelude To New Order

The present "uneasy peace" need not be merely an interlude preceding World War III but can be the forerunner of a world order based on justice, liberty, and reason, Dr. Robert G. Sproul, president of the University of California, told almost 3,000 graduates at the 84th Commencement June 21.

This new order, however, will not come as a result of inaction, lack of vision, and dearth of aspiration, he warned the candidates for degrees. "Every step of the way will involve diligent planning, ceaseless effort, and ungrudging sacrifice," he said.

Nothing that "nearly every man of you—and some of the women—has been a more or less vigorous participant in the most complete, most brutal and most fateful war in history," the University president charged the class of 1947 "to carry all that you can of the heroic mood of war into the less dramatic but far more significant struggle for peace."

The University's first concern, Dr. Sproul said, has been the education of the individual to be a good citizen. "Throughout your years with us one unalterable purpose has motivated the administration and faculty of the University—namely, the preservation and advancement of American democracy through the production of competent, responsible, cooperative leaders and followers. We have sought to teach you to believe in the future of your country and to accept self-discipline in order that our traditional freedoms, including free enterprise, may survive."

Correct Spark Plugs - - -

To achieve driving economy and efficiency, use of spark plugs with the proper heat range is important, the California State Automobile Association says. This problem has been recognized by manufacturers who now furnish spark plugs for various types of driving. For long hard driving a cooler type of spark plug is more efficient, while city driving, where the motor is usually subjected to lesser degrees of heat, may require a "hot" type of spark plug. Any competent mechanic can quickly determine which type of spark plug is best suited to the driver's needs.

New facts about the biological effects of poisons resulting from atomic bomb explosions have been reported at the University of California.

U.S. Army Offers Opportunities To High School Grads

A survey of vital interest to every high school graduate has recently been completed by the United States Army Recruiting Service which has placed a definite dollars and cents value of the type of educational training which enlistment offers.

The survey estimates that the youth who takes advantage of continued opportunities for schooling after graduation will on the average earn \$40,000 more during his lifetime than the classmate who takes no further courses.

"The high school graduate who enlists in the Army," Col. M. L. McCreary, chief of recruiting, Sixth Army Area, pointed out, "has the opportunity to acquire high technical skill in a wide variety of crafts. Thus he prepares himself for this higher bracket income whether he makes the Army his career, or later returns to civilian life. And at the same time he earns at a minimum the equivalent of \$211.46 civilian pay per month."

"Even if the graduate is in a financial condition to continue on to college there are definite advantages to be derived from enlistment now," Col. McCreary emphasized. "Not only will he be better equipped for college by Army training but, in all probability, he will find college campuses less crowded when his enlistment period is over."

Col. McCreary warned, however, that requirements for enlistment in the new Regular Army were constantly becoming more stringent as quotas are filled and urged all those interested in the educational benefits offered to get in touch with their nearest recruiting office without delay.

Sea Bass And Barracuda Taken

Sport fishing boats brought in fair catches of sea bass and barracuda last week from the waters off Los Angeles county. Pier fishermen in this region made several good catches of halibut.

More than 80 per cent of 1946 accidents in the United States occurred in clear weather.

Club Warns Against Hot Weather Blowouts

Hot weather increases the possibilities of tire blowouts, warns the California State Automobile Association, which suggests that motorists take note of their worn or defective tires and tubes and replace them with new ones. All makes and sizes of tires and tubes now available.

News Column For The Vets

Liberalized National Service Life Insurance has been especially designed to give veterans of World War II maximum peacetime security and protection, especially when the veteran becomes permanently disabled for an extended length of time.

Two of the most important features of G.I. insurance, administered by the Veterans Administration, are provisions for waiver of premiums on account of total disability and on income paid the veteran while totally disabled.

Waiver of premiums on account of total disability is automatically provided in all types of NSLI, including low-rate term insurance, ordinary life, 20 and 30-payment, life, 20-year endowment and endowments at age 60 and 65.

Total disability is defined as any impairment of mind or body which continuously renders it impossible for the veteran to follow any substantially gainful occupation.

Waiver of premiums may be granted upon written application by the veteran after he has been totally disabled for six consecutive months, provided he became totally disabled after the date of his application for insurance, while his insurance was in force under premium paying conditions and prior to his 60th birthday.

The veteran who becomes totally disabled and makes application for waiver of premiums should continue to pay premiums regularly until he receives notice from VA of entitlement to waiver. All premiums the veteran has paid from the date the waiver is made effective will be refunded without interest.

In order to provide an income should he become totally disabled, a veteran, for a small additional premium, may insert a total disability income provision into any type G.I. insurance policy he is carrying.

The disability income feature provides payment of \$5 a month for each \$1,000 of insurance in force for veterans who are totally disabled for more than six consecutive months, commencing prior to the veteran's 60th birthday.

Payments commence on the first day of the seventh consecutive month of disability and continue so long as total disability exists, even beyond age 60.

Neither waiver of premiums or total disability income payments decrease the face amount of the policy nor are they deducted in any settlement of the policy.

Question: Can the beneficiary or family of a veteran make premium payments on his NSLI if the veteran doesn't care to do so?

Answer: Yes, but the insured

Water Fears Traced To Baby's Bathtub

Fear of the water, in many cases, is directly traceable to an unfortunate childhood experience of slipping in a bath or of being knocked down and suddenly submerged.

This is the conclusion of Dr. Jack E. Hewitt, assistant professor of physical education on the Berkeley campus of the University of California, writing in the Journal of Health and Physical Education.

"One fear-producing situation that children seldom forget is loss of adequate support during a bath," Dr. Hewitt has found through case studies of more than 150 people who were afraid of the water. To overcome such fear, and learn to swim, requires patient and sensitive handling on the part of the swimming instructor.

To help young children become adjusted to the water as easily as possible Dr. Hewitt suggests that the child be given plenty of support in its bath and that care be used when putting water on its face; that bathing be made a play period with floating objects to amuse the baby, and that drastic temperature changes be avoided.

A child should never be forced into any water situation against its will, Dr. Hewitt warns, nor should it be scolded or ridiculed when it shows fear of the water.

Hazardous Industries
The number of persons killed accidentally on farms is said to be more than twice as great per 100,000 workers as in city industries.

veteran has the right to change his beneficiary or beneficiaries at any time without consulting with or receiving the approval of anyone. He may also surrender his permanent NSLI policy for cash after premiums have been paid in full for one year.

Philippine Education Under Japs Studied

Japan's cultural invasion of the Philippines was a dismal failure because of its mismanagement of public education and the loyalty of the Filipinos to the United States.

This is the conclusion of Bill J. Priest in his dissertation presented for his degree of Doctor of Education on the Berkeley campus of the University of California.

None of the cultural aims of Japan were realized during the occupation period, Dr. Priest finds, the major result being only the retarding of education in the Philippines as a whole. His study was based on primary sources in the islands where he served as a naval officer, later returning to the University to complete his studies.

Teachers and pupils alike were hostile to the Japanese scheme of education, Dr. Priest reports, but, despite overwhelming obstacles, have turned eagerly to rebuilding their school system since the liberation of the islands.

Social Security Cards Necessary For Teen-Agers

"School vacation means summer jobs for teen-agers, so remember to get your social security cards, or a duplicate if the original one has been lost," Edward J. Foley, manager of the San Mateo Social Security office advised students today. "One of the first things an employer asks for is the social security card, so be prepared when you ask for a job. Be sure you have only one card and one number, since more than one number issued to a person means possible errors in wage accounts."

"Social security benefits are based on all wages recorded, and lack of a card or possession of more than one means proper benefits may not be paid when the time comes. This applies not only to the Federal old-age and survivors insurance program, but also to the State unemployment and disability insurance program, and railroad employment."

The local social security office is at 22 North B street, San Mateo, and is open from 8:30 a. m. to 5 p. m., Monday through Friday. Applications for social security cards should be brought in to the office, or mailed in.

Foley also said that for the older

Fly Anglers On Kern River

Fly anglers on the Kern River in Kern county have been having excellent luck lately, according to the National Automobile Club. They have taken fine catches all along the river and have had particularly good sport in the region of the Gorge.

Fly Fishing Good

Fly fishermen are enjoying first-rate sport along Silver Creek and the South Fork of the American River in El Dorado county, reports the National Automobile Club. All streams in this county are at just about the right level for fly fishing.

members of the family the Social Security Administration urges that all persons working in jobs where social security deductions are made have their cards renewed if they have been lost, become illegible, or do not show the present name of the worker. Employers and employees alike can then be sure that accurate reports are sent in, and proper benefits paid when due. "When the employer looks at the card, and copies the number and the name from it to use in reporting wages paid, very few errors can happen. Time and expense is thus saved all along the line," Foley said.

Bus Drivers May Loose Licenses

California school bus drivers involved in accidents will have their bus drivers licenses withdrawn at once pending full investigation and further examination of driving ability, it was announced today by Edgar E. Lampton, director of motor vehicles.

Three deaths and 39 injuries among school children in the first four months of this year were cited by Lampton as the reason for drastic action by the state. Two deaths occurred in Los Angeles county and one in Merced county. Los Angeles also had nine injuries, the highest of any county.

"In addition to more rigid con-

Your Life Line - - -

Consider the single white line on the highway as your life line, advises the California State Automobile Association. Cross it to pass other motor vehicles only when it is perfectly safe to do so, and never cross a double line.

Control of school bus drivers we are also making every effort to see that all school buses conform to safety regulations," Lampton said. "Before schools reconvene next fall every school bus in the state will be carefully checked by members of the Highway Patrol. Also, manufacturers have been warned that safety specifications must be met or buses will be ruled off the highways."

Lampton also revealed that plans also are under way for much more rigid original examinations for bus drivers.

Most Essential Signal

"Traffic authorities will say that the motorist's three hand signals are equally important but that is because they wish the motoring public would so treat them," states Bert Stewart jr. of the Public Safety Department of the National Automobile Club. "They don't actually believe it."

"The most important of the three signals — and the motorist who does not know it and act accordingly nearly always comes a cropper eventually — is that for the left turn. It involves by far the greatest conflict with other vehicles."

More than 90 per cent of all automobile accidents in 1946 involved cars with no apparent mechanical defects.
